

Pressure pipe PVC-U trasparente

Tubo a pressione PVC-U, trasparente, lunghezza 5m.

Pressure pipes for joint system by cold chemical welding (gluing through the use of suitable WELDON adhesive and detergent primer) in transparent rigid PVC that offers good impact resistance and high light permeability. Ideal economic solution for visible applications.

- **Size range:** d 20 - d 160 (mm)
- **Bar length:** Standard 5.0 m bars, other sizes on request
- **Coupling standards:** Solvent welding
- **Sectors of use:**
 - Pool circulation and filtration systems
 - Inspection points on small plants
- **Pipe material:** PVC-U transparent
