

VMIV – Mini Diaphragm valve DN 8

Mini-diaphragm valve with female ends for solvent welding, metric series.

The VM mini-valve is used to shut-off and regulate fluid flow and is characterised by its reduced size.

- Connection system for solvent weld and threaded joints
- **Extremely compact dimensions**
- **Can be installed in any position**
- **Valve material compatibility** (PVC-U) and elastomer seal elements (EPDM), with water, drinking water and other food substances as per **current regulations**
- Specifically designed for laboratory applications or for sampling purposes
