

# CROV - Wafer check valve DN 40:300

Wafer check valve in PVC-U/EPDM.

The CR wafer check valve is designed to be installed directly between stubs and flanges in accordance with ISO/DIN standards.

- Installed with FIP QPV (d50 - d160) stubs and QRV stubs using flat gasket QHV/Y (d225 - d315), on PVC piping class PN10 or lower with type ODV flanges
- **Metal support for easy and precise centring** of the valve during installation
- Can be installed in either a vertical or horizontal position
- **Sealing system with O-ring** for optimum sealing and installation without flat gaskets
